===== SECTION VII - PRECAUTIONS FOR SAFE HANDLING AND USE =====

STEPS TO BE TAKEN IN CASE MATERIAL IS RELEASED OR SPILLED

Small leaks: Mop up, wipe up or soak up immediately. Remove to out of doors.
Large spills: Evacuate area, contain liquid, transfer to closable metal containers. Keep out of water supplies.

WASTE DISPOSAL METHOD

Do not dump into sewers, on the ground, or into any body of water. Any disposal practice must be in compliance with state, local and federal regulations.

PRECAUTIONS TO BE TAKEN IN HANDLING AND STORING

Follow protective controls set forth in Section VIII when handling this product. Prevent water or moist air from entering the containers. Aluminum equipment should not be used for storage and/or transfer. Use in cool, well-ventilated areas. Keep containers closed when not in use. Keep away from excessive heat and open flames. Use non-sparking utensils when handling this material. Avoid hot metal surface.

OTHER PRECAUTIONS

Vapors are heavier than air and will collect in low areas, displacing oxygen. Do not enter confined areas such as tanks or pits without following proper entry procedures. Do not cut or weld on empty or full drums. Do not use reuse drum without recycling or reconditioning in accordance with any state, local or federal law.

===== SECTION VIII - CONTROL MEASURES =====

RESPIRATORY PROTECTION

When spraying this material use a NIOSH approved cartridge respirator or gas mask suitable to keep airborne mists and vapor concentrations below the time weighted threshold limit values. When using in poorly ventilated and confined spaces, use a fresh-air supplying respirator or a self-contained breathing apparatus.

VENTILATION

General mechanical ventilation or local exhaust should be suitable to keep vapor concentrations below TLV. Ventilation equip. must be explosion proof.

PROTECTIVE GLOVES: Impermeable chemical handling gloves for skin protection.

EYE PROTECTION

Use chemical safety glasses, goggles, and faceshields for eye protection.

OTHER PROTECTIVE CLOTHING OR EQUIPMENT

Use impermeable aprons and protective clothing whenever possible to prevent skin contact. The use of head caps whenever possible is strongly recommended.
